

# Stealth Lock Setup instructions

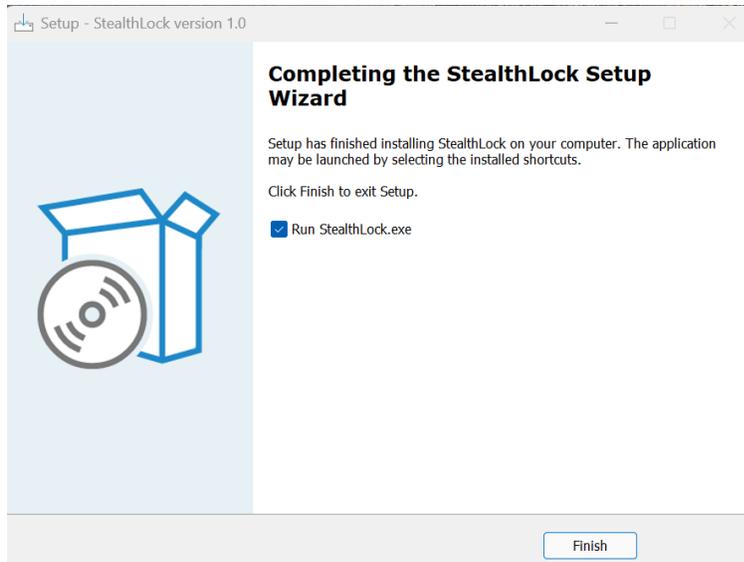

## INSTALLATION

## CLICK NEXT

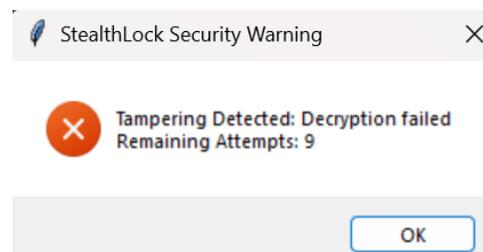

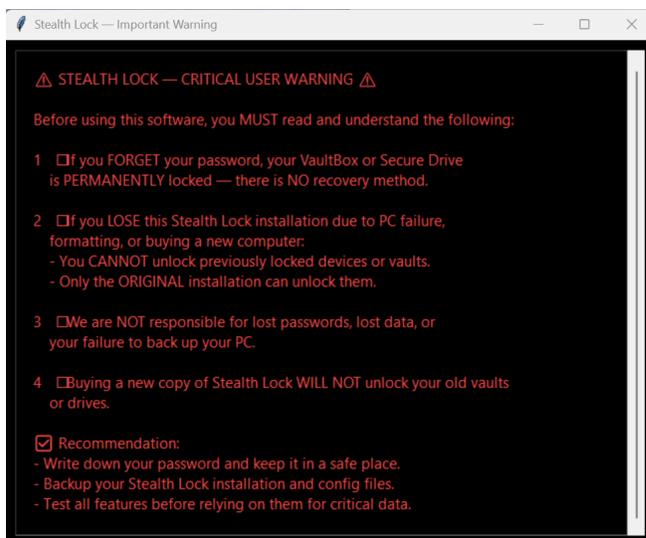

## CLICK INSTALL

**Leave box checked and click FINISH**

**WARNING:** if you uncheck the box and click finish StealthLock will not install and you will not get a second chance to install so please leave the box checked and click finish.

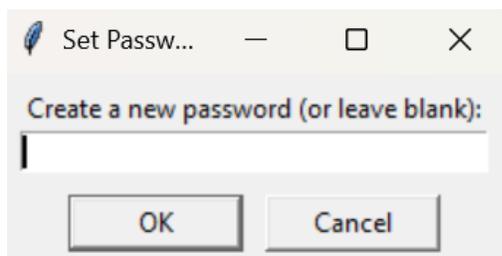

**NOTE:** StealthLock is a powerful tool and can only run with admin privileges

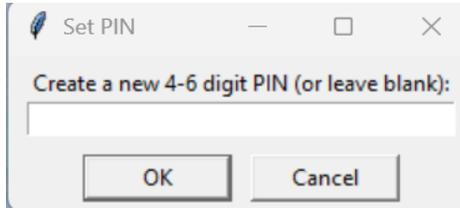

Now you will get this  On first launch after installation, StealthLock will perform a one-time integrity check. This will result in a security popup — it's completely normal and safe to ignore and you will never see this again. This is only a security measure. It only means StealthLock is checking for unauthorized changes. StealthLock now knows your PC is where it will live from now on. Click OK

You will see this only at the initial first time run. Please take this seriously because this is Premium Security . Now you should feel a peace of mind knowing StealthLock got your back always. Please Read and Understand This is Premium Security and If you lose your password you lost everything I can't stress it enough. This is the perfect time to set a restore point on your PC.

Now click the StealthLock icon and you will get this.

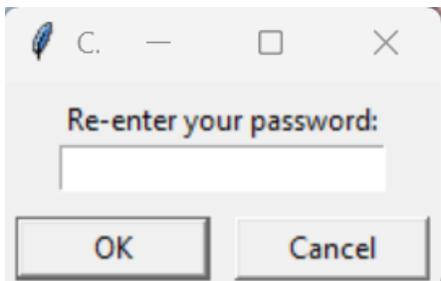

Enter a strong password and save somewhere safe. This will be used to unlock StealthLock

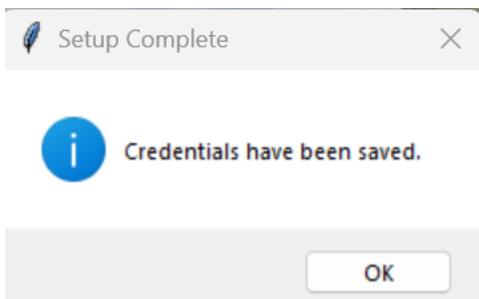

**Not necessary but adds extra layer of protection Add PIN or not and click OK**

**Not adding PIN just click OK ( IF you add pin now you can use either PIN or Password when logging on. This is your choice but not necessary)**

**Re-enter password to confirm and click OK**

**NO HACKERS and NO FORENSICS CAN PENETRATE because any attempts StealthLock will defend itself before giving up anyone's Privacy or secrets. Attacks on StealthLock will result in blocking**

and further attempts will result in StealthLock self-destructing. This is Next Level the Ultimate Security and privacy of all who Own StealthLock  
NOTE: Any 5 wrong password attempts to unlock StealthLock  
First will be one minute Second 1 HOUR etc....

**NOTE : VAULTBOX CAPACITY = TO USER HARD DRIVE CAPACITY**

**LIMITS = USERS HARD DRIVE CAPACITY**

**NOTE: UAC= User Account Control popup will show on every launch of StealthLock You must click YES in order to use StealthLock. StealthLock can only be used and only works with administrative privileges. This will be the most powerful tools on your PC**
