

PC Lock – Setup & Usage Guide

Welcome to PC Lock – a simple, powerful way to add an extra layer of protection to your system.

 Step-by-Step Setup Instructions

PLUG IN YOUR USB BEFORE RUNNING PC LOCK

Step 1: Enable PC Lock

Check the box labeled "**Enable PC Lock**" in the application panel.

Step 2: Click “Setup Lock”

This will begin the process of creating your secure USB vault key.

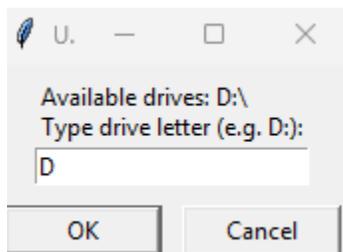

Step 3: Enter Your Password

Type a strong password and click **OK**.

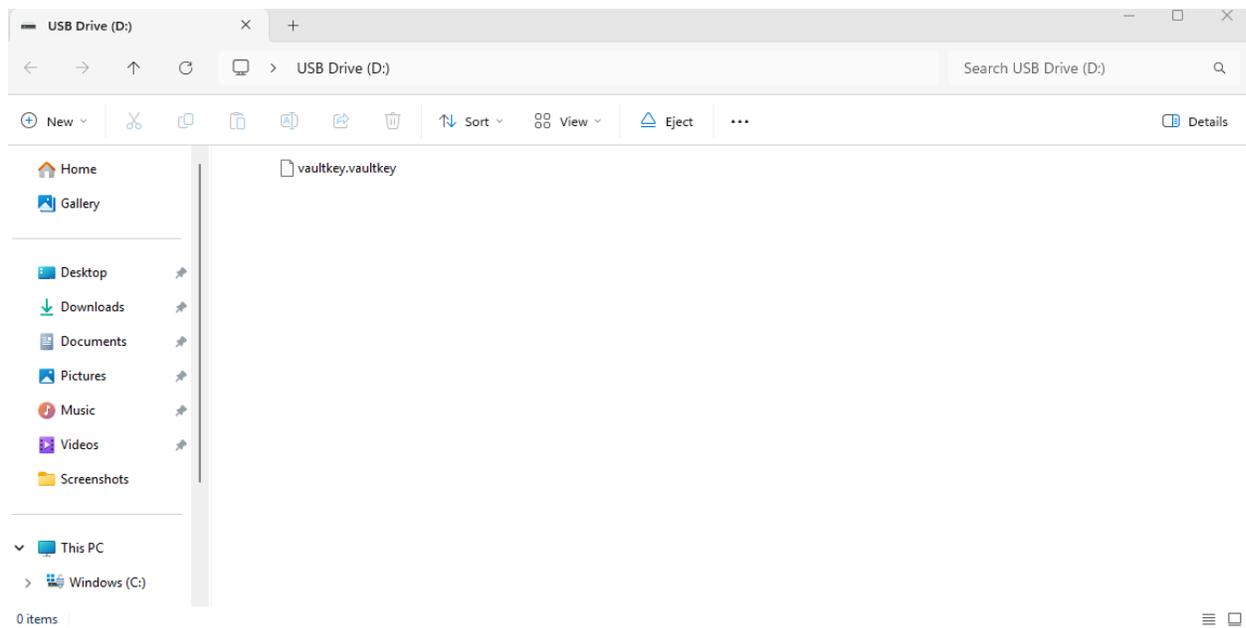

Step 4: Confirm Your Password

Re-enter the same password to confirm. Click **OK** again.

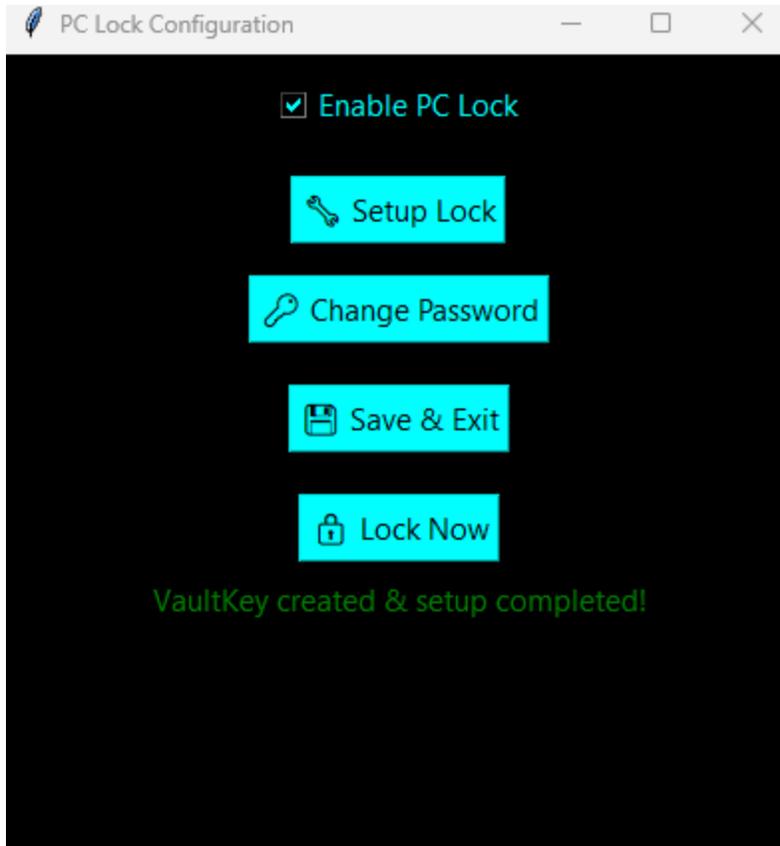

Step 5: Select Available USB Drive

Choose the USB drive you want to use as your VaultKey and click **OK**.

Step 6: Confirm VaultKey Creation

A confirmation will appear once the VaultKey is successfully created.

Step 7: Click “Save & Exit”

You will now see a message in the panel that says:
“VaultKey created & setup completed!”

 **Using PC Lock**

- **To Lock Instantly:** Double-click the **PC Lock Icon** anytime you leave your computer.
- **To Disable PC Lock:** Uncheck the **“Enable PC Lock”** box in the panel.

Lost USB Key?

- CLICK Setup Lock and create a new USB key

Change Password

To change your PC Lock password at any time, just click **“Change Password”** in the panel.

System Behavior Notice

We tested PC Lock on multiple systems. Here's what we found:

- **Lock timing varies** depending on your system's startup speed and loading time.
- If you **let Windows fully load before entering your login credentials**, PC Lock will **lock your system instantly** upon login unless the USB key is plugged in.
- When leaving your PC just double click PC Lock icon and it will automatically lock instantly
